VCC
International NV

About Our
Company

Founded by Bert Vermaas in 1992 in his home office with just one software solution to start with, VCC International has since grown into the local and regional leader in financial software with currently 10 software solutions, more than 700 clients throughout the Caribbean, and a dedicated team of 7 professional consultants.

Real Software, Real support is our slogan, and our clients can testify to that!

HRM

M-Files®
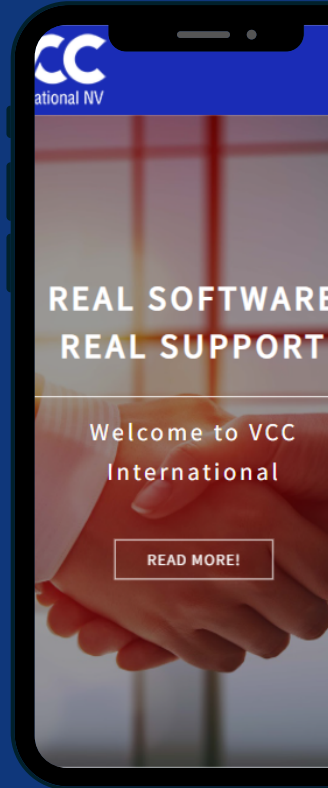

Exact Globe
Your Next ERP system

Exact Globe is one of the most impressive ERP tools on the market for managing your business and automating all your back-office functions. Adopted and trusted by all the major accounting firms, Exact Globe covers everything from sales, purchasing, inventory, service & repair, production, and every other imaginable part of your business, with everything automatically ending up in your financials. One of the inherent strengths of Exact is the One-X concept: every piece of information only needs to be registered once for it to be available throughout the system and to all departments.

SYSTEM FEATURES

- Multi-company
- Multi-language
- Multi-currency
- Multi-warehouse
- Multiple intra-warehouse locations
- Serial/batch tracking and tracing
- One-X entry system
- Reporting integration with Excel, Crystal Reports, Sumatra & QlikView
- Production administration, bill-of-materials
- Role-based detailed security settings
- Full audit trails
- Automatic document (attachments) generation
- Cash-flow management

Payroll Pro HRM
Made in Aruba

Payroll Pro HRM is a fully integrated Payroll and HRM software solution created specifically for clients based in the Dutch Caribbean by local software developer Gamma IT Solutions. Payroll Pro HRM is incredibly easy-to-use and flexible, serving clients of all sizes, from small and medium companies to multinationals, with the same superior levels of quality and performance across the board.

SYSTEM FEATURES

- Integrated HRM with Employee App, Online Employee & Manager Self Service Portals (ESSP & MSSP), Online Accountant Portal
- Calculations always based on the most up-to-date tax tables changes, current with all local laws
- Interfaces with all local banks, accounting software and all Time-Clock systems
- Multi-currency net pay
- Unlimited users
- Multi-company and Multi-country in one Attractive price
- Role-based detailed Security Settings

M-Files
Ultimate Efficiency

M-Files is a robust, intuitive document management solution that integrates seamlessly with Windows Explorer. M-Files is the only system to offer a "virtual-local" drive that bridges the gap between centralized data storage and local compute resources. It is the perfect mix between low-cost, low-functionality systems like Dropbox and Google Drive on one hand, and expensive, high-functionality systems on the other. In other words, M-Files delivers a ton of bang for your buck.

SYSTEM FEATURES

- System Neutral, Metadata Driven
- Cloud, On-Premises, or Hybrid
- Automated Workflows
- Seamless Integration with Microsoft Office and more

ImageCapture
Intelligent Software: It reads it, It books it

Digital Invoice Processing

ImageCapture for Invoices is intelligent scanning and recognition software (OCR) that easily allows you to digitally enter and process digital and paper invoices on your accounting system. By automatically processing purchase invoices you cut out the time-consuming, costly stages of processing, while reducing the room for human error. Another added benefit is that you will always have a full overview of your records at any time.

UBL PDF XML paper invoice — Recognition creditor invoice header and invoice lines

Automatic entry proposal

Created entry in financial application — Approval in application or ImageCapture

Sumatra
Operational Intelligence

Complete Information

With Sumatra you can see at first glance what needs your attention, and more importantly why. Sumatra features an unique presentation format which allowes data to be combined and showcased in one screen. Because all relevant associated and underlying information is shown, questions are answered immediately. Decisions are no longer based on assumptions; with Sumatra you decide based on facts!
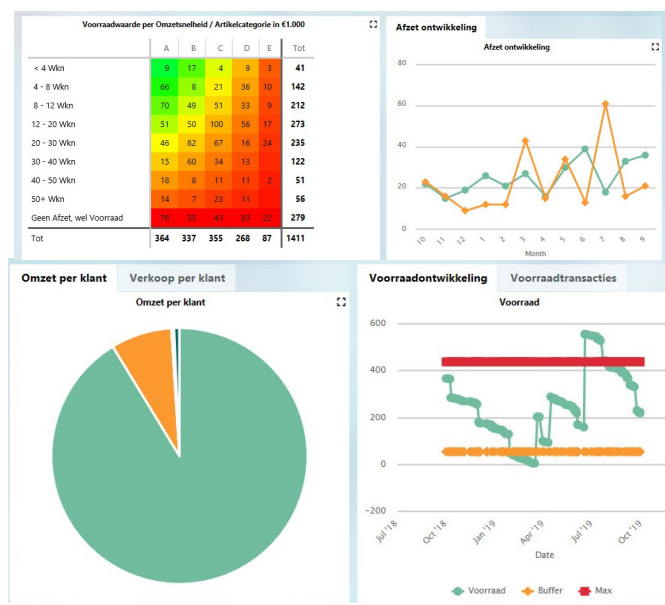

Commence
Literally anything is possible...

Commence is a robust suite of applications that enables businesses to create and deploy unique business solutions in the areas of sales, marketing, customer service, and project management in a fraction of the time and cost of other alternatives. Since 2008, VCC has primarily used Commence as a development tool, using it to build an incredible variety of customized software solutions for a wide range of clients. Its flexibility has enabled us to build custom applications for local shipping and cargo companies, distribution companies, law firms, insurance companies, communications companies, resorts, other tourism-related companies, you name it. In total, some 60 local clients have benefited from the customized software solutions that we built for them using Commence.

Track Leads & Sales
Close more deals by accurately measuring sales activity and efficiency.

Automate Marketing
Automate email and social media marketing campaigns.

Manage Tasks & Resources
Plan, organize and manage projects, tasks, resources, and timesheets with ease.

Track Customer Service
Make customer service a competitive advantage by facilitating fast response time.

Qlikview
Business Intelligence

This cutting-edge tool brings a whole new level of analysis, insight, and value to existing data stores with user interfaces that are clean, simple, and straightforward.

Consolidate
QlikView's patented, in-memory technology rapidly combines data from any source. Plus, drag-and-drop makes integrating data from multiple sources easy.

Visualize
Here's the fun part. In just seconds, see your data any way you want. Put it in charts, tables, graphs—every kind imaginable. Make them 2-D or 3-D. Click anywhere for more detail. Remix and reassemble data in new views and create new visualizations for deeper understanding. With QlikView, you'll see your data in a whole new light.

Crystal Reports
Business Intelligence

With Crystal Reports, you can create powerful, richly formatted, dynamic reports from virtually any data source, delivered in dozens of formats, in up to 24 languages. Now that's impressive! Crystal Reports turns data into interactive, actionable information that can be accessed offline or online, from applications, portals, and mobile devices. Crystal Reports allows users to graphically design data connection(s) and report layouts.

With Crystal Reports Visual Advantage, you can gain even more functionality for compelling reports. This bundled product includes Crystal Reports and Xcelsius Engage, giving you the power to create highly formatted reports with what-if scenario models and interactive charts.
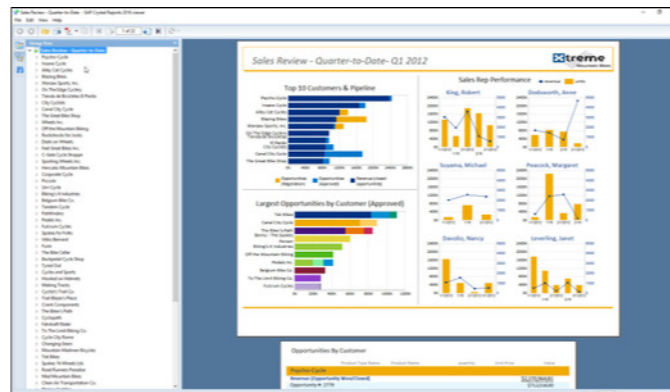

KStore & Kpos
Webshop & POS

VCC has proudly partnered with the Portugal-based company Kwalit, which has developed several powerful solutions for those all-important interactions with customers: a robust Point-of-Sale solution, a comprehensive Sales Automation solution, and a versatile Webshop—. Through this partnership, VCC can offer Kwalit's top-notch "front-office" business solutions. VCC stands firmly behind the quality of Kwalit's software, and perhaps more importantly, behind the quality of the company and the speed of its support.

KSTORE, the Sales Automation software, with graphical dashboards for analyzing actuals versus target, predefined routes, ability to make quotations, sales orders, invoices (for direct selling), and even the ability to create customer visit objectives and visit reports.

KPOS, the Point-of-Sale solution, with online and offline mode, multi-currency and multi-warehouse capabilities, batch registration (for expiry dates), serial number registration, and much more.
